**Working in an ever-expanding variety of
areas, languages and cultures:**

To *share the good news* that God loves
LGBT people as they are and calls them
into inclusive communities of faith;

To *provide programs, support, and
counseling* that build self-esteem and
wholeness, capacity to love and freedom to
participate fully in religious and community
life;

To *network* with and equip those who seek
to challenge existing prejudices and
discriminatory practices, especially in the
areas of theological and pastoral training,
human and civil rights, and HIV/AIDS

Why MULTICULTURAL MINISTRIES WITH SEXUAL MINORITIES ?

No single nation or culture can claim to have a monopoly on the best insights, experiences and answers for advancing liberation and justice for sexual minorities.

International networking can hasten (to and from any corner of the globe) the spread of solutions to oppression, violence and AIDS.

Networking over critical issues produces creative responses. Events such as the founding of Metropolitan Community Church (1968) and Stonewall (New York, 1969) sparked the establishment of affirming movements that sustain a liberation movement and solidarity in many denominations. What might spreading the news of these and other international triumphs in human rights, and the AIDS struggle, inspire for those in remote areas and situations?

"We are everywhere." Gifted leaders in countries with emerging movements espousing freedom and justice for sexual minorities need the encouragement of affirming, life-saving print and media resources that other LGBT movements, wherever in the world, have already published. Our first privilege and responsibility is to listen to one another, but the work of human liberation will escalate across the world when we share our resources, knowledge and experience to empower each other.

ORGANIZED in 1992
